From Keihanna to Japan,
the world, and the future,

けいはんな学研都市は、産官学住の連携が特徴の日本を代表するサイエンスシティです。
わたしたちは、ロボット開発や情報通信技術をはじめ、地球にやさしい環境エネルギー、最先端医療、バイオテクノロジーなど、さまざまな分野で社会貢献の道筋を模索してきました。
子どもからお年寄りまで、誰もが幸せに楽しく暮らせる社会をけいはんなからつくり、発信し、実現させたい。
けいはんな万博は、わたしたちが科学技術とともに描いた未来を体験、実感できるイベントを多数企画しています。

Keihanna Science City is one of Japan's leading science cities by based on collaboration between industry, government, and academia, with local residents. We have been exploring ways to contribute to society in a variety of fields, including robot development, information and communication technology, earth-friendly environmental energy, cutting-edge medical care, and biotechnology.

We want to create, communicate, and realize a society where everyone, from children to the elderly, can live happily and happily from Keihanna.

The Keihanna Expo is planning a number of events, where you can experience and feel the future that we have envisioned together with science and technology.
